- ▶ **Play an important role in helping people** get the best results from their medications.
- ▶ **Help improve outcomes and reduce costs** when involved in patient care.
- ▶ **Are accessible**, and serve as someone people can talk to face-to-face without an appointment.
- ▶ **Communicate effectively** to evaluate factors that may affect a patient's ability to take a medication.
- ▶ **Are the medication specialist** on the healthcare team.
- ▶ **Work in a wide range of healthcare settings** and have flexible hours.
- ▶ **Are trained in colleges of pharmacy**, which are centers of academic excellence, scientific research and innovation.
- ▶ **Help people live healthier, better lives.**

PHARMACY Is Right For

Me

IS PHARMACY RIGHT FOR YOU? ASK YOURSELF:

- ▶ Do you want to serve the community and improve people's health?
- ▶ Do you have strong communications skills?
- ▶ Do you like science and math?
- ▶ Are you detail-oriented and organized?
- ▶ Do you enjoy problem-solving?

If the answer is **“yes”** to one or more of these questions, then pharmacy may be right for you!
